

New Zealand Energy Quarterly - December 2008 -Issue 05

23 March 2009 - The New Zealand Energy Quarterly provides quarterly statistics and trend data on the supply of major fuel types, electricity generation and its associated greenhouse gas emissions, and liquid fuel prices.

Highlights from this quarter:

- Plunging world oil prices translated to record falls in NZ petrol and deisel prices.
- Record high crude oil production in 2008

The New Zealand Energy Quarterly is part of a suite of energy publications produced by the Ministry of Economic Development.
