5 Additional information to accompany an application to extend the land of a prospecting or exploration permit

A map showing the land for which the proposed extension is sought in relation to the existing permit.⁴

A statement of the reasons why, in the permit holder's opinion, the Minister should extend the land to which the permit relates, including:

- (a) geological evidence that supports the application;
- (b) details of how the permit holder proposes to prospect or explore the additional land; and
- (c) a discussion of any proposed amendments to the current minimum work programme for the permit or the expenditure for it.

6 Additional information to accompany an application to extend the land of a mining permit

A map showing the land for which the proposed extension is sought in relation to the existing permit area.⁴

A statement of the reasons why, in the permit holder's opinion, the Minister should extend the land to which the permit relates, including:

- (a) geological evidence that there is a deposit capable of being mined in the area for which the proposed extension is sought (including maps, diagrams, cross-sections, and any other supporting evidence that indicates the location and extent of the identified deposit in that area);
- (b) estimates of the mineable mineral resource of the deposit in the land for which the extension is sought, which may include:
 - i) inferred, indicated, and measured mineral resources;
 - ii) probable and proved reserves; and
- (c) details of how the permit holder proposes to mine the additional land;
- (d) a discussion of any proposed amendments to the current work programme for the permit; and
- (e) a discussion of any proposed change to the point of valuation for royalties payable under the permit.

4. The map must be prepared in accordance with regulation 4 and 5 of the Regulations.
