

How we help investors

NZP&M is happy to meet potential investors and new entrants to the New Zealand resources sector.

We can arrange introductions to other government agencies, iwi representatives, and local government officers, and provide advice on engagement and regulations in New Zealand.

We can provide overviews of the commercial setting and the resource potential of NZ, and help bring technical teams up to speed with our datasets. We can also help connect you to technical experts to take the discussions further.

NZP&M is available to help at every step of the process - if you have any further questions or are seeking advice, [please contact us \[http://mbie17.cwp.govt.nz/about/contact-us/\]](http://mbie17.cwp.govt.nz/about/contact-us/).

We also strongly recommend that you obtain expert advice from a reputable New Zealand environmental agency and iwi consultancy to assist you in preparing to work here. New Zealand Petroleum and Minerals can help you in this regard. There are a number of public relations firms with energy sector experience in New Zealand.
